

MISSION STATEMENT

The name Jumbunna is an Aboriginal word meaning 'talk together'. This name reflects the philosophy of our centre. Children and adults by talking, playing and working together, learn to understand, and hence accept each other.

Mission Statement

As a specialised Early Intervention and Early Childhood service we excel at providing education, therapy and family support to children with additional needs and their families, as well as a high-quality preschool program for all children.

Our Philosophy

Relationships: We focus on developing positive relationships to ensure we add value to the voices of children, families, community and our team of professional staff. By developing positive relationships, we will create an environment of trust and understanding.

Child centred: We believe that children grow and learn through play and talking together. We have the child at the centre of all plans and decisions.

Unique: Jumbunna is unique in how we provide support and services. We have many branches of support, knowledge and skills. By working together and collaborating we create a rich learning environment for all involved. We are able to provide a suite of services to support children, families and young people in their own community.

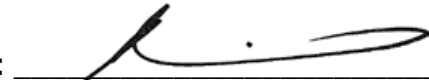

Trust: Through our focus on building relationships, we create an environment of trust. We are committed to safety, wellbeing and care for all involved. Families trust in us to care for their most precious child or young person.

Inclusive: At Jumbunna we embrace diversity. We are all different and bring different perspectives to the table, including staff, children, families and young people. Through this we create a rich and fulfilling environment.

The Approved Provider delegates to the Nominated Supervisor that all policies and procedure meet the regulations and are followed.

The Approved Provider ensures this by communication with the Nominated Supervisor by informal and formal avenues (e.g. verbal discussion, Committee Meetings, and viewing required paperwork.)
